

# Enigma™

Australia

Pinot Gris  
Raspberries  
Redcurrant  
**Rock melon**  
Light tropical fruit

Cultivated through our in-house breeding program, Enigma™ is the newest hop in the Hop Products Australia family. Enigma™ is a descendant of the German Tett nang hop. After winning over Aussie brewers with her beguiling ways in trial brews, we expanded our plantings at our Tasmanian farm in 2013, ready for her first generous crop in 2015.

## Analytical values

Growing Area	Australia
Lineage	It was bred from Tett nang Tett nanger
$\alpha$ -acids*	13.5 - 16.5 %
$\beta$ -acids	4.8 - 6.4 %
Total Polyphenols	No data
Total oils	2.4 - 3.0 ml/100g
Myrcene	No data
Linalool	No data

The analytical values are typical for the variety at the time of harvest, but may vary according to crop year, growing region, grower and degree of ageing.

\*The alpha content is determined by means of spectrophotometric analyses.
