

Vic Secret

Australia

Candied fruits
Pineapple
Apple blossom
Grapefruit
Strawberry

Vic Secret's story began when she was developed from a seedling created in Victoria in 2000. She actually shares the same mother and father as her sister Topaz. She breezed through the selection program with strong growth and yield, until 2010 when the first brewing trials were conducted. The first commercial production was in 2013.

Analytical values

Growing Area	Australia
Lineage	Australian high alpha acid female and a male developed at Wye College
α -acids*	14.0 - 17.0 %
β -acids	6.0 - 7.0 %
Total Polyphenols	Keine Daten
Total oils	2.2 - 2.8 ml/100g
Myrcene	38.0 - 41.0 % of total
Linalool	0.2 - 0.6 % of total

The analytical values are typical for the variety at the time of harvest, but may vary according to crop year, growing region, grower and degree of ageing.

*The alpha content is determined by means of spectrophotometric analyses.
