

Bullion

UK

Dill
Fennel
Aniseed
Red pepper
Lemongrass
Blackberry

Bullion is a sister seedling from Brewers Gold. In 1919 Bullion raised as a crossing between a female wild cultivate from Canada and an unknown English male. It's a late variety, which is less biny in the heads than other varieties. On the contrary to the mother, Bullion is immune against the Mosaic virus.

Analytical values

Type	Bitter
Growing Area	UK
Lineage	Wild Manitoba BB1
α -acids*	6.5 - 9.5 %
β -acids	4.5 - 5.5 %
Total Polyphenols	No data
Total oils	0.8 - 1.5 ml/100g
Myrcene	app. 48.0 % of total
Linalool	No data

The analytical values are typical for the variety at the time of harvest, but may vary according to crop year, growing region, grower and degree of ageing.

*The alpha content is determined by means of spectrophotometric analyses.
