

Endeavour

UK

Endeavour is a new bred dwarf variety from a cross made in 2002. This variety imparts unique English flavour notes – like citrus, spicy and red fruits – to the beer.

Analytical values

Type	Aroma
Growing Area	UK
Lineage	A seedling of Cascade and a granddaughter of Target
α -acids*	7.5 - 10.6 %
β -acids	No data
Total Polyphenols	No data
Total oils	1.2 - 1.8 ml/100g
Myrcene	No data
Linalool	No data

The analytical values are typical for the variety at the time of harvest, but may vary according to crop year, growing region, grower and degree of ageing.

*The alpha content is determined by means of spectrophotometric analyses.
