

# Wye Target

UK

Cognac  
Caramel  
Elderberry  
Tobacco  
Vanilla

Target was bred at Wye College and released in 1976. It is the most widely grown British hop, which offers very high bitter value and very good stability. A flexible hop that may be used to effectively bitter a wide variety of both ales and lagers. Unusually effective for dry hop aroma.

## Analytical values

Type	Bitter
Growing Area	UK
Lineage	It was bred from the variety Challenger
$\alpha$ -acids*	9.5 - 12.5 %
$\beta$ -acids	4.3 - 5.7 %
Total Polyphenols	No data
Total oils	1.2 - 1.4 ml/100g
Myrcene	45.0 - 55.0 % of total
Linalool	No data

The analytical values are typical for the variety at the time of harvest, but may vary according to crop year, growing region, grower and degree of ageing.

\*The alpha content is determined by means of spectrophotometric analyses.
