

Glacier

USA

Plum
Artichoke
Elderflower
Vanilla
Blackberry

Glacier is a daughter of Strisselspalter and was released by the USDA breeding programme. This variety was put on the market in 2000 by Washington State University due to its low cohumulone content.

Analytical values

Type	Dual Purpose
Growing Area	USA
Lineage	Daughter of Strisselspalt
α -acids*	app. 5.5 %
β -acids	app. 8.2 %
Total Polyphenols	No data
Total oils	0.7 - 1.6 ml/100g
Myrcene	33.0 - 62.0 % of total
Linalool	No data

The analytical values are typical for the variety at the time of harvest, but may vary according to crop year, growing region, grower and degree of ageing.

*The alpha content is determined by means of spectrophotometric analyses.
