The Australian hop variety Super Pride is a seedless high alpha acid variety, bred by the Hop Products Australia Rostrevor breeding programme. Bred from the famous Pride of Ringwood – Australia’s dominant hop variety since the 1960’s – Super Pride features similar mild aromas and low cohumulone levels. Super Pride has higher alpha acid than its mother Pride of Ringwood. Bred in 1987, commercial production began in 1998 and since 2002 Super Pride has been the major hop variety grown by Hop Products Australia. With its excellent bittering qualities Super Pride is now accepted by many major breweries.
