

Monroe

Germany

Orange syrup
Fennel
Cherries
Strawberry
Lemon balm

The new hop variety Monroe established itself similarly extravagant as who it was named after. With an alpha content of only 2.5 % and an oil content of 0.95 ml/100 g, Monroe showcases itself at the beginning as mild and smooth. When you add the hop to a beer, then she shows her true colors: exactly like everyone remembers Marilyn Monroe in a red dress. A guise full of red aromas. In the nose, there are wonderful raspberry notes supplemented with orange syrup and added to this in the taste is the sweet taste that reminds one of summer and cherries.

Analytical values

Growing Area	Germany
Lineage	From wild US variety
α -acids*	2.5 %
β -acids	No data
Total Polyphenols	No data
Total oils	0.95 ml/100g
Myrcene	No data
Linalool	No data

The analytical values are typical for the variety at the time of harvest, but may vary according to crop year, growing region, grower and degree of ageing.

*The alpha content is determined by means of spectrophotometric analyses.
